Dear Hiring Manager:

My varied healthcare clinical experience of over 10 years, Bachelor's degree and Doctorate degree in Physical Therapy are my strongest qualifications that I can offer your company.

I have completed over 10 months of internship training in various hospitals in the Philippines. And also, I have completed over 6 months of internship training here in California prior to obtaining my PT license. In different settings such as ICU, CCU, Cardiac unit, Oncology, Out-Patient, In-patient, Acute Rehab, and Sub-acute. I am a team player and detail-oriented person who work well under pressure and able to deal with people in departments throughout the hospital and in other various settings. Leadership, communication and organization are some of the qualities developed from being an intern, class treasurer, and youth leader. Also, I have promoted those skills from being a PT supervisor in an Outpatient Clinic. With a strong belief in knowledge advancement and the ability to learn, I am open to training.

I purposely pursued an education, both academic and hands-on, that would best prepare me for such endeavor. In 2016, I have graduated from Shenandoah University achieving the degree on Doctor of Physical Therapy.

I would welcome the opportunity to our meeting as a first step to a mutually profitable outcome. If you would like to schedule an interview you may reach me at (818) 671-7850 or via email at [Claud.Yee@Gmail.com](mailto:Claud.Yee@Gmail.com).

With great enthusiasm,

Claudine F. Yee-Calvo
